PennSIVE Template in Xaringan
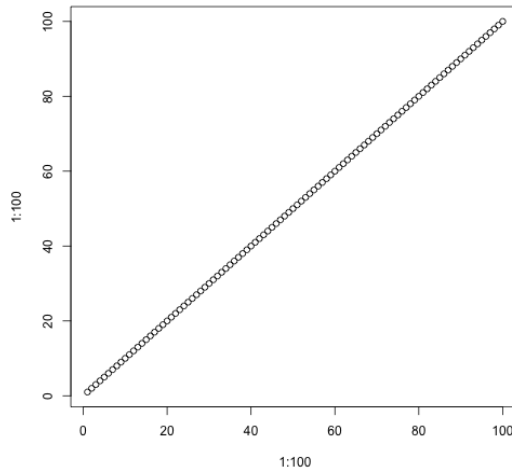

Andrew Chen

This is a Title

This is some body

- The body can contain *lots* of things[1]
  - Such as

- And even a second column, **wow**![2]

[1]No sources here
[2]But just in case you had two
And don't worry about footnotes being too long they'll wrap around before they mess with your slide number, as shown here

Welcome to a New Section

Featuring more placeholder text

This is a Smaller Title

And here's an equation

$$e^{i\pi} = -1$$

And a fun table

Slide Type	My Review
PowerPoint	3/10: Does images well, but equations are the worst
Other HTML Slides	5/10: At least they're not PowerPoint
Xaringan	10/10: Support for TWO columns and equations and backgrounds, see this link by Yihui
